# ColorCode 3-D Paper™ Custom Glasses

ColorCode 3-D® - anytime, anywhere

US Patent No. 6,687,003 • AU Patent No. 763370 • EP Patent No. 1131658

The ColorCode 3-D Paper Custom Glasses are a great way for your company to promote a brand or deliver a message to be remembered. They do have the same patented high quality filters as all other ColorCode 3-D glasses that, together with the ColorCode 3-D encoding, enables ColorCode 3-D's easy accessible high quality 3-D - anytime, anywhere.

### Sales terms

- ColorCode 3-D Paper Custom Glasses are delivered flat as standard and packaged in rubber banded bundles of 50 units. The glasses can be delivered folded at an additional charge, please ask for offer.
- Glasses measures 5,0 x 41,2 cm unfolded, and 5,0 x 14,2 cm folded.
- The front of the glasses will always contain the ColorCode 3-D eye logo and the backside will always be black and contain the ColorCode 3-D logo and patent numbers in white print.
- The customer provides the artwork. Please ask us for templates and design guidelines.
- Production time varies upon quantity. Most ship within 2-3 weeks of approved art and payment.
- Custom printed glasses are subject to a variance of +/- 5% in quantity.
- All prices are exclusive of customs, taxes, VAT and shipping cost.
- Payment terms: Payment up front.  
All payments are made through International wire transfer unless anything else is agreed.

The ColorCode 3-D Paper glasses can be manufactured in custom shape with special design, or to be used for magazine inserts, direct mail etc. Please contact us to discuss these possibilities further.

The ColorCode 3-D Glasses are part of the patented ColorCode 3-D System and may only be distributed with genuine ColorCode 3-D encoded material. You can find more information at [ogon3d.com/colorcode3d.htm](http://ogon3d.com/colorcode3d.htm)
